What You Should Know

Important information about your FamilySearch Account
Engagement No. B058763

What Happened?

On March 23, 2022, we detected unauthorized access to certain computer systems. We immediately notified federal law enforcement authorities in the United States. We were asked to keep the incident confidential to protect the integrity of the investigation. This instruction was lifted on October 12, 2022.

What Information Was Affected?

The breached FSI systems contain personal data, including basic contact information, of users of the FamilySearch website. The data that was accessed may include, if you provided it, your username, full name, gender, email address(es), birthdate, mailing address, phone number(s), and preferred language.

What Are We Doing?

We have been working with external forensic experts, U.S. federal law enforcement authorities, and other cybersecurity professionals to investigate the incident and further enhance the security of FSI's systems. We also have notified data protection authorities, including, for example, the supervisory authority in Germany, where FSI's representative under Art. 27 GDPR is based.

In the United States: toll-free (833) 559-0435, Monday through Friday, 7:00 a.m.–9:00 p.m. Mountain Time (MT); Saturday and Sunday, 9:00 a.m.–6:00 p.m. MT (excluding major U.S. holidays).
